## Data Scientist | PhD in Physics

**Brief résumé:** I recently earned my PhD in Physics where I specialized in experimental data analysis and mathematical modeling. I led several short and long-term projects in collaboration with colleagues from several institutions in different countries. The results of which I have presented as a speaker in multiple international seminars and conferences. Moreover, I keep continuously extending my computer skills with numerous courses on **Data Engineering**, **Data Science** and **Machine Learning**. To mention some skills: Supervised and Unsupervised Learning with scikit-learn; Deep Learning with Keras, TensorFlow and PyTorch; NLP with NLTK and spaCy; SQL; PySpark, AWS; Tableau; etc.
